SAN GABRIEL VALLEY CLEANUP PROGRAM- GROUNDWATER MONITORING FOR EMERGENT CHEMICALS, BALDWIN PARK OPERABLE UNIT (BPOU)

Dear Mr. Macala:

Recently, we asked BPOU participants to sample and analyze twice for perchlorate, N-nitrosodimethylamine, 1,4-dioxane, and MTBE. The first set of results were due on November 30, 1998 and the second set on March 30, 1999.

Our records show that you have not submitted any of the results for both rounds of sampling and analyses. These results are important to determine the extent of emergent chemicals contamination in the BPOU. Please submit the results by May 30, 1999. Failure to submit the results by the due date may result in appropriate enforcement action.

If you have any questions concerning this matter, please call me at (213) 576-6727.

Sincerely,

E. G. SOLOMON
Associate Engineering Geologist
